

Plan your racing experience

A checklist for trade shows, corporate events and brand activations

Send the details below with your inquiry. We will recommend a package and confirm availability, pricing and venue requirements for your selected equipment.

01 SPACE & GUEST FLOW

Booth or room dimensions, floor plan, open sides, furniture and spectator area. Allow room for operators, queues, access and motion clearance; equipment footprints alone are not the full space requirement.

02 POWER & VENUE COORDINATION

Venue electrical form, available outlets and exhibitor requirements. Ask us to confirm equipment load and circuit requirements before ordering venue power.

03 DELIVERY & SCHEDULE

Venue address, loading dock, access restrictions, doors or elevators, move-in window, event hours and teardown deadline. Include freight handling and contractor requirements.

04 BRANDING & EXPERIENCE

Casual driving or a leaderboard competition? Tell us whether you want simulator wraps, a leaderboard or lead capture, and who will coordinate artwork and approvals.

STARTING DAY RATES / PER SIMULATOR

Pro static: \$2,800

Omega 3DOF: \$3,900

Elite 6DOF: \$6,200

Setup, staffing and teardown included. Travel outside Las Vegas and optional add-ons are quoted separately. A quote request is not a reservation.
